The Securitization of Humanitarian Migration: Digging moats and sinking boats (Routledge Advances in International Relations and Global Politics) Scott D. Watson

This book examines how western liberal states are progressively restricting access to refugees and asylum seekers, even though these states have signed international agreements obliging them to offer protection to those fleeing persecution and to advocate the spread of human rights and humanitarian principles. Watson examines how refugees and asylum seekers have come to be treated so poorly by these states through the use of policies such as visa requirements, mandatory detention and prevention/return policies. Providing extensive documentary analysis of debates on 'restrictive' refugee policies in Canada and Australia, the author addresses the relationship between security and migration, an issue of increased importance in the aftermath of 9/11 and the war on terror. He then examines hotly-contested policies such as detention and the forceful return of asylum seekers to demonstrate how attempts to securitise these issues have been resisted in the media and by political opposition. Given the importance of providing refuge for persecuted populations, not only to ensure the survival of targeted individuals, but also to maintain international peace and security, the erosion of protective measures is of great importance today. The book will be of interest to students and scholars of international security, international relations, migration and human rights

Arnulfo Walls:

Reading a book for being new life style in this 12 months; every people loves to read a book. When you go through a book you can get a large amount of benefit. When you read textbooks, you can improve your knowledge, mainly because book has a lot of information onto it. The information that you will get depend on what forms of book that you have read. If you would like get information about your analysis, you can read education books, but if you act like you want to entertain yourself look for a fiction books, such as novel, comics, as well as soon. The The Securitization of Humanitarian Migration: Digging moats and sinking boats (Routledge Advances in International Relations and Global Politics) offer you a new experience in looking at a book.

Elvia Ecklund:

As a scholar exactly feel bored to reading. If their teacher questioned them to go to the library or make summary for some reserve, they are complained. Just little students that has reading's spirit or real their hobby. They just do what the trainer want, like asked to go to the library. They go to presently there but nothing reading significantly. Any students feel that looking at is not important, boring in addition to can't see colorful pics on there. Yeah, it is being complicated. Book is very important for yourself. As we know that on this era, many ways to get whatever we would like. Likewise word says, many ways to reach

Chinese's country. Therefore , this The Securitization of Humanitarian Migration: Digging moats and sinking boats (Routledge Advances in International Relations and Global Politics) can make you experience more interested to read.
