Designed to prepare students for health-related careers, *General, Organic, and Biological Chemistry: Structures of Life* breaks chemical concepts down into manageable pieces and offers a step-by-step approach that clarifies student understanding. Timberlake's friendly writing style, student focus, strong problems, and engaging, health-related applications have made this text a best seller among its peers.

The **Fourth Edition** emphasizes connections between chemistry and students' future careers – and develops the problem-solving skills students need beyond the classroom. Each chapter now includes **NEW chapter-opening Career Interviews** and **Career Focus** features to illustrate the role chemistry plays in modern, health-related professions. A new **Analyze the Problem** feature furthers critical-thinking skills by showing students how to break down a word problem into the components needed to solve that problem. Throughout the new edition, national student performance data collected through MasteringChemistry® on assigned problems informed the extensive revisions to end-of-chapter problems, ensuring their effectiveness.
