That's the Way I Think: Dyslexia and Dyspraxia Explained David Grant

Much of the current literature on dyslexia focuses on literacy and study, and in some ways 'misses the point' – that it affects your whole life and your personality.

This book helps readers to understand how dyslexics feel and how they develop coping strategies; it will be enlightening for dyslexic people themselves, their parents and teachers/tutors. It is written in a non-academic style and will immediately strike a chord with readers who have experience (first or second hand) of this condition. It contains anecdotes and stories of personal experiences. Many dyslexic people also have dyspraxia and/or ADD, and the book considers the additional challenges presented by these overlapping conditions.

David Grant is a chartered Psychologist specialising in dyslexia diagnosis and student services. He is a regular speaker at conferences (including BDA International). He formerly worked for the University of Westminster.
