- How fast is communication from their side to ours?
- Do we get to see them again?
- What do you say to a grieving spouse?
- How do you deal with grieving on a 24/7 basis?
- How do some of the old ways of dealing with death compare with now?
- Do corpses sit up?

What is life like as an undertaker living in a mortuary in a mansion in the center of a small town... In this short work enhanced by a few photos, mortician Frank Witty and his wife Irene share a warm, gutsy, sensitive, sometimes lightly humorous account of just such a vocation, answering questions like those above and more. The voices of Frank and Irene come through as they would if the reader were sitting at their kitchen table listening. Taken from two interview sittings totaling several hours, this story could have easily developed into a book. At first I grieved the fact that I didn't have the health capacity to work with that process at that time of being mesmerized by Frank and Irene's sharing what were at some points the most visceral of memories. Yet, this couple and I, friends in a small town of friends, knew that some memories which involve grieving families are not meant to be written and published. So what is here is what the Witty's wanted to be shared to the public. They approved this account as it is and loved it. It says precisely what they wanted said, in the way they wanted it written, mostly to help grieving families by what the Witty's shared, and by what they didn't share.

With the highest regards to this husband wife team,
Linda Shelnut

From the publisher, KINDLE GLOW BOOKS:
Copyright dates indicate:

1. When the content was originally drafted, approved, and published in the official local newspaper paper, THE FLORENCE CITIZEN, by request of the publisher, Bob Wood, and Frank and Irene Witty, August 2000.

Most but not all of Linda Shelnut's series of 8 Visceral Histories based around the mining economy of Fremont County were published as special long inserts in one or more official local hard copy newspapers and sometimes in a coal industry mining hard copy journal at the time of writing, with drafts approved by the subjects prior to publication, as per the Visceral History Code included in each of the original series of eight.

2. When the Amazon Shorts edition was published in April 2007.

3. When the story was updated in places and published August 2012 with a few photos and new book cover(s) in editions of Kindle Glow Books. Later edition dates would indicate minor corrections or updates in support information around the story.

4. When the alternate book cover of Frank and Irene was used for the first time with the December 2012 Fourth Kindle Edition to honor and thank them on this special month of a special year.

5. When 2013 [and later] editions were published with updates in appendix materials, and when an abridged edition was offered without appendices.

The most vital information Frank Witty wanted communicated here to help grieving was made in his single statement included in this Kindle offering:

"Communication from that realm is instantaneous."

With no fanfare Frank gently presented that statement in our interview. He said it quietly but with intense clarity and direct eye contact, to signify that he wanted it given in this account in the way it has been, to picked up by those who would use that information in good spirit and good health.

Frank Witty was pleased with how his words and his wife's contributions were written into this published account.

If a person thinks about that statement he might see that it answers much more than one question. When reading this article note how Frank wanted this knowledge interjected here to ease the pain of "losing" a loved one. Of course he shared a few other priceless gems as well [like the hundreds of hummingbirds at the end]. A wise man he was. He earned that wisdom.
