Radio Journalism (Journalism Studies: Key Texts) Guy Starkey, Andrew Crisell

Radio Journalism introduces key themes in journalism studies to explore what makes radio reporting distinctive and lay out the claims for radio's critical importance in the news landscape.

With their extensive experience in radio production and academia, authors **Guy Starkey** and **Andrew Crisell** take readers on a tour through the past, present and future of radio broadcasting, from the infancy of the BBC in the 1920s up to the prospect of rolling news delivered to mobile telephones. Grounding each chapter in a survey of scholarly writing on the radio, they explore the connections between politics, policy and practice, inviting critical reflection on who radio professionals are, what they do and why. Putting theory and practice into dialogue, this book is the perfect bridge between unreflective production manuals and generalised media theory texts.

Witty and engaging, **Radio Journalism** provides an essential framework for understanding the continuing relevance of radio journalism as a profession, set of practices and arena for critical debate.
