Bred to Kill: A Thriller Franck Thilliez

“Crichton fuses with *True Detective* in a hammering hard-science thriller where the heart of darkness lies not in the soul, but in the genes. Thilliez engineers a winner.” —Scott Sigler, *New York Times*—bestselling author of the *Infected* trilogy

In the shocking sequel to runaway international bestseller *Syndrome E*, Lucie Henebelle and Inspector Sharko reunite to investigate the brutal murder of Eva Louts, a promising graduate student who was killed while working at a primate research center outside Paris. But what first appears to be a vicious animal attack soon proves to be something more sinister. What was Eva secretly researching? Could she have been on the track of a crazed trio of scientists attempting to unleash a thirty-thousand-year-old virus into the world?

With his unmatched ability to inject cutting-edge science into his novels, Thilliez draws on genetics, paleontology, and the dark side of human nature to create this smart, adrenaline-fueled thriller. *Bred to Kill* moves from the rain-slicked streets of Paris to the heart of the Alps to the remote Amazon jungle as Lucie and Sharko work to solve the murder—before whoever killed Eva comes for them.
