Recovery Exercises for Christians - Book 2: Wisdom Literature (Volume 2) Ken Gross

In operating a ministry that contained several sub-ministries having a recovery orientation I noticed something we were missing. There didn't seem to be a good selection of exercises that would help the sponsor/mentor/counselor in their quest to assist in the healing of the individuals under their spiritual guidance. Most of what was available was gleaned from secular recovery sources. This series of three books, each containing 50 unique Christ-centered exercises, have therefore been written to help the helper in their role as a spiritual guide. Each exercise is designed to require a written response, which then allows the guide to discuss that response with the people under their charge. This will assist the guide in addressing issues, struggles or other problems in the context of whatever recovery plan they are utilizing. Each exercise is presented so that the spiritual guide can make some notes in the book owned by the individual they are helping prior to assigning an exercise. The individual working through the exercise then provides their written response in separate documentation so as to retain personal privacy and confidentiality over the responses they prepare.
