Gregor draws on his wartime experiences to write a huge novel called "The Death of My Brother Abel," in which among many threads of narrative he presented the perspective of small aristocrats refusing to see the disappearance of their cultural and physical world. Elie Wiesel, writing in *The Washington Post*, said: "If a great novel can be recognized by its obsessions, its characters and above all its tone, then 'The Death of My Brother Abel' is unquestionably great." In a Paris hotel room a man is sitting at a desk, trying to write. In sparkling, luminous fragments about his youth before World War II and his experience in Germany during and after the war; in sardonic, passionate, witty, and paradoxical set pieces about love and work, about sex and writing, about families and nations; in almost dreamlike narrations of his inner longings and outward intentions, the narrator tries to explain to his agent why he can't "boil down the plot of my novel into three sentences". When history is carnage, narrative seems impossible, yet it exerts irresistible power. At its heart, *The Death of My Brother Abel* is concerned with the ultimate paradoxes of destruction and rebirth, with the way these forces affect our literature, our art, and the flaws and glories of our own humanity.
