The New Mysteries of Sherlock Holmes Martin Edwards

The New Mysteries-Book of Sherlock Holmes brings together for the first time all the Sherlock Holmes stories written by award-winning crime author Martin Edwards. David Stuart Davies, one of the world's leading Sherlockians, contributes an introduction acclaiming this book: "One only has to read a few pages to realise that Martin Edwards has not only caught the style and quality of the originals, but the characters speak with Doylean voices. In short, Martin Edwards knows his Holmes, and he puts that knowledge to great effect in this set of cases...all the tales presented here are finely constructed mysteries in which Holmes is able to demonstrate his brilliance as a detective. This is partly due, of course, to the fact that Edwards is a fine crime writer in his own right and has great experience in conceiving puzzles to confound his readers."

The book includes a range of special features, including an essay by Martin Edwards analysing Arthur Conan Doyle's story-telling gifts, and another looking at how other writers have paid tribute to Sherlock by writing pastiches. There is also an appreciation by leading crime novelist Michael Jecks and a biographical note. As David Stuart Davies says, "This is a gem of a collection, a Blue Carbuncle or a Borgia Pearl of a volume. I recommend this trip down Baker Street guided by the safe stewardship of Martin Edwards."
