Healing Plants and Animals from a Distance: Curative Principles and Applications Jim PathFinder Ewing

Using simple rituals—whose roots draw from shamanism, spirituality, religion, Native American studies, vibrational energy, and alternative medicine—becoming conscious of healing abilities is possible. This manual demonstrates not only how to gain the knowledge and wisdom afforded by various spirit beings, guides, and helpers, but also how to apply this knowledge in the natural world. Key diagnostic methods address specific ways to talk with plants and animals, understand what they say and how they say it, and how harmony, healing, and wholeness may be attained in both urban and rural settings. Visualization, prayer, and other techniques for accessing the vibration rates and consciousness of living things are also explored.
