There may be no more urgent cry today than that of "justice" -- and no more frequent accusation than that of "injustice." But what is meant when these terms are used? *Six Theories of Justice* clarifies that question and offers major alternative answers. Dr. Lebacqz surveys three philosophical approaches to justice: John Stuart Mill's utilitarianism, the "contract" system of John Rawls, and the "entitlement" views of Robert Nozick. These are followed by analysis of three theological approaches: that of the National Conference of Catholic Bishops, of Reinhold Niebuhr, and of the liberation theologian Jose Porfirio Miranda. A comparison of the effectiveness of each approach in providing direction for facing and dealing with contemporary issues and situations adds to the usefulness of this volume. A lucid and well-structured introduction to recent thinking in social ethics.
