## **Wine Production and Quality** Keith Grainger, Hazel Tattersall

Since the publication of *Wine Production: Vine to Bottle* (2005) and *Wine Quality: Tasting and Selection* (2009), there has been a great deal of change in the wine industry, and the perceptions of critics and expectations of consumers have shifted. *Wine Production and Quality, Second Edition* brings together its two predecessors in one updated and considerably expanded volume.

This comprehensive guide explores the techniques of wine production in the vineyard and winery, and considers their impact upon the taste, style and quality of wine in the bottle. Part 1 of the book provides a structured yet easily readable understanding of wine production, from vine to bottle. The impact of natural factors, including climate and soil, is considered, together with the decisions made and work undertaken in the vineyard and winery. Part 2 looks at quality in wines: the concepts and techniques of tasting are detailed, along with the challenges in recognising and assessing quality. Also discussed are the steps producers may take, and the limitations they may face, in creating quality wines.

The book will prove valuable to beverage industry professionals, wine trade students, wine merchants, sommeliers, restaurateurs, and wine lovers as well as those entering (or thinking of entering) the highly competitive world of wine production.

### From reader reviews:

#### **Kelly Cohn:**

The book Wine Production and Quality can give more knowledge and information about everything you want. So just why must we leave the great thing like a book Wine Production and Quality? A number of you have a different opinion about guide. But one aim that book can give many info for us. It is absolutely correct. Right now, try to closer with the book. Knowledge or information that you take for that, you could give for each other; you could share all of these. Book Wine Production and Quality has simple shape but you know: it has great and big function for you. You can seem the enormous world by wide open and read a publication. So it is very wonderful.

#### **Mary Norman:**

What do you in relation to book? It is not important with you? Or just adding material when you need something to explain what your own problem? How about your free time? Or are you busy man or woman? If you don't have spare time to complete others business, it is make you feel bored faster. And you have extra time? What did you do? Everyone has many questions above. The doctor has to answer that question mainly because just their can do that. It said that about book. Book is familiar on every person. Yes, it is correct. Because start from on jardín de infancia until university need that Wine Production and Quality to read.

#### **Belinda Ferguson:**

The reason? Because this Wine Production and Quality is an unordinary book that the inside of the e-book waiting for you to snap the idea but latter it will zap you with the secret the idea inside. Reading this book beside it was fantastic author who have write the book in such incredible way makes the content interior easier to understand, entertaining way but still convey the meaning completely. So , it is good for you because of not hesitating having this any more or you going to regret it. This amazing book will give you a lot of gains than the other book include such as help improving your ability and your critical thinking method. So , still want to postpone having that book? If I ended up you I will go to the publication store hurriedly.

#### **Stephen Redmond:**

What is your hobby? Have you heard that question when you got students? We believe that that concern was given by teacher with their students. Many kinds of hobby, Everyone has different hobby. So you know that little person like reading or as looking at become their hobby. You have to know that reading is very important in addition to book as to be the thing. Book is important thing to incorporate you knowledge, except your current teacher or lecturer. You get good news or update in relation to something by book. Many kinds of books that can you take to be your object. One of them is this Wine Production and Quality.
