Thermal Solid Waste Utilisation in Regular and Industrial Facilities (Environmental Science Research)

Thermal Solid Waste Utilisation in Regular and Industrial Facilities (Environmental Science Research)

Proceedings of the International Workshop, *Thermal Solid Waste Utilization in Regular and Industrial Facilities*, held in Kazimierz Dolny, Poland, November 28-30, 1999.

In recent years, industrial and urban growth has resulted in growing volumes of nondegradable wastes, and this volume focuses on the technologies related to recycling and material reuse which are now being favoured over land disposal. There is an overview on waste utilisation in industrial facilities, particularly cement kilns, from an ecological as well as technological aspect, and some innovative solutions of pyrolytic and plasma reactors, used for hazardous wastes combustion.
