Greg finds an old camera with an uncanny knack of predicting--in the photographs it takes--a grisly future for its subjects, but he cannot convince his friends of the danger.

Greg thinks there is something wrong with the old camera he found. The photographs keep turning out different.

When Greg takes a shot of his father's brand-new car, it's wrecked in the picture. And then his dad crashes the car, nearly totaling it. It is like the camera can tell the future. Or worse. Maybe it makes the future!

Greg's friends don't believe him. Shari even makes Greg take her picture at a party. Only Shari is not in the picture when it develops. Is Shari about to be taken out of the picture permanently?

Spanish title: Escalofrios: Sonrie y muerete
