You're about to discover a better way of playing the field.

Tired of losing deals? Sick of suffering through the consequences of your wrong decisions? Find it hard to choose among hundreds of options before you? Well, that's understandable. Choices can be overwhelming. But you don't need to give up on the things that you want just because you have a history of making the worst decisions. With the help of game theory, you will learn to adapt a more rational, effective, and analytical way to formulate your decisions and land the outcome that you've always wanted.

If you're deliberating on whether or not to decrease the prices of the food offered in your restaurant, you don't have to rely on the signs whispered by the wind or the appearance of a blue moon to signal and cement your decision. More often than not, decisions based on merely feelings can lead to chaos and dissatisfaction. It will always be better to use your head in making a choice especially in major deals such as your businesses and personal affairs.

Let's have a look at some of the things you will learn...

- The theory behind Game Theory
- Terms you need to know to play the game
- Why Game theory is better than decision theory
- How Game theory can make decision-making easier
- How to classify Game types
- Game theory strategies
- Real-world applications of game theory
- And much, much more...
