**Twenty five years later, revisiting the first authorized biography of Apple and its co-founder and celebrity CEO, Steve Jobs**

In 1984, *The Little Kingdom: The Private Story of Apple Computer* told the story of Apple's first decade alongside the histories of Steve Jobs and Steve Wozniak. Now, completely revised and expanded, *Return to the Little Kingdom* is the definitive biography of Apple and its founders from the very beginning.

Moritz brings readers inside the childhood homes of Jobs and Wozniak and records how they dropped out of college and founded Apple in 1976. He follows the fortunes of the company through the mid-1980s, and in new material, tracks the development of Apple to the present and offers an insider's profile of Jobs, whose genius made Apple the powerhouse it is today.

Required reading for everyone who's ever listened to music on an iPod, *Return to the Little Kingdom* is timely and thorough, and the only book that explains how Steve Jobs founded the company that changed our world.
