People Before Profit: The New Globalization in an Age of Terror, Big Money, and Economic Crisis

Charles Derber

Has globalization failed us? The promises of economic stability, increased prosperity, and cultural cooperation seem more like a pipe dream than ever before. But rather than stop globalization, Charles Derber challenges us to rewrite its rules in order to fulfill its potential as an agent of democracy and global harmony. In this provocative and optimistic work, one of the first examinations of globalization after September 11, 2001, Derber argues that only a democratic cure--begun at the grassroots level--will end global terror and economic insecurity. *People Before Profit* provides an essential understanding of our world economy as well as a practical guide for building a stable and more equitable global community.
