Taiji and Quantum Entanglement Mr. Willard J. Lamb

Taiji is a martial art that comes out of the shamanistic traditions of the ancient past. It is remarkable for its high level of martial applications. It is within the context of the Taiji Master's training that he confronts the "spooky actions at a distance" that confounded Albert Einstein. It was the reason he had difficulty accepting the tenets of Quantum Mechanics. This is an exploration of some of the research that affects the Taiji Master in his pursuit of excellence, and how science is will eventually have to confront the problem that it has with the conscious mind. The unusual access to the multiverse experience by the Taiji Master introduces a new and different take on the esoteric experiences of the Master in his pursuit of truth.
