Miramont's Ghost The Truth Revealed

When a ghost appears in the sky above Mirage Mountain of North Territory (MIRAMONT) and shakes the lives of millions an old scientist with a fading will to live is invited to join the research expedition, funded by a very mysterious man. Can he solve the mystery? Find out what happened.

Have a glimpse:

Firstly, the definition for the word GHOST according to a ridiculous ancient source called Wikipedia (a collaborative web-based encyclopedia whose content were contributed by volunteers and can be edited by anyone. This website had been eternally banned from planet Earth due to it's threat towards humanity).

GHOST- In traditional belief and fiction, a ghost (sometimes known as a spectre (British English) or specter (American English), phantom, apparition or spook) is the soul or spirit of a dead person or animal that can appear, in visible form or other manifestation, to the living. Descriptions of the apparition of ghosts vary widely from an invisible presence to translucent or barely visible wispy shapes, to realistic, lifelike visions. The deliberate attempt to contact the spirit of a deceased person is known as necromancy, or in spiritism as a séance.

The belief in manifestations of the spirits of the dead is widespread, dating back to animism or ancestor worship in pre-literate cultures. Certain religious practices—funeral rites, exorcisms, and some practices of spiritualism and ritual magic—are specifically designed to rest the spirits of the dead. Ghosts are generally described as solitary essences that haunt particular locations, objects, or people they were associated with in life, though stories of phantom armies, ghost trains, phantom ships, and even ghost animals have also been recounted. However, nine hundred and fifty seven years ago the above definition of the word ghost had been found to be totally irrelevant to the advance world of the Earth thus Mirage Mountain of North Territory (MIRAMONT) and had been defined differently since then.

GHOST (according to the Grand Dictionary of Earth):

1. Anything that is yet to be understood scientifically.
2. Something; event, phenomenon, etc that baffles or eludes the understanding and cannot be explained for the time being.
3. Any that arouses suspense or curiosity because of an obscure or unknown, enigmatic quality.
4. The state or quality of being inexplicable, obscure or enigmatic.
