Besides offering the reader a comprehensive study on price action mechanics, included within is a series of six months of consecutive sessions of the eur/usd 5-minute. Containing nearly 400 fully annotated charts, this section alone harbors a massive database of intraday analysis, not found in any other trading guide.

Written with a razor-sharp eye for practical detail, yet in a highly absorbable manner, **Understanding Price Action** breathes quality from every page and is bound to become a classic in the library of any trader who is serious about his education.
