There are some problems that not even money can solve... For years I was raised in a happy, wealthy family of millionaire developers, content as could be with the life that had been built up around me, until as a teenager I lost my mother to cancer, and my life was briefly thrown into turmoil. Eventually, though, my father re-married, and my family was restored to its mostly happy state. Except there was one problem- I was falling in love with my step-sister, Skylar, a relationship that I wanted more than anything, but that I felt certain could never be. It drove me crazy not to be able to tell her how I felt about her, for so, so long, and when I accidentally witnessed her in bed with her boyfriend on the night of our senior prom, I knew I had to get away. I spent years running from our impossible love, turning my family's millions into billions, and resorting to all sorts of drastic methods to escape without ever managing to truly succeed. Is it possible to still find happiness, even after all these years? This is a stand-alone Contemporary New Adult Romance novel. No Cliffhanger.
