**The Country Wife: a novel of what has been and what might be** Jodi LaPalm

A woman fighting for what she knows to be true...

Quinn Donovan has been a country girl from the start, first as a privileged rancher's daughter and now as a young farmer's wife. Perhaps the only bond stronger than her tie to the land is the love she has for her husband Michael. Building a simple life is Quinn's primary concern, and she immerses herself in every aspect of domestic bliss. As she works tirelessly to create a haven within the walls of their rented farmhouse, Michael spends long hours working for another in the hope he might someday afford to farm his own land.

A life of tranquility quickly turns to turmoil, however, once Quinn realizes something is not right. Her body. Her husband. Her memories. Everything feels off. And no matter how much she tries to ignore the changes around and within her, she is forced to acknowledge their reality.

In a short time, the simple life Quinn worked so hard to achieve becomes incredibly complicated. And as any excitement for what might be is clouded by fear of her marriage and a once-forgotten past, she will need to rely on the support of unlikely friends to see her through. Yet with every passing season, it becomes apparent that whatever darkness lies beneath threatens to consume everything she has and the doubt of what has been holds the power to destroy any possibility of a future.
